

S620 - 2K Accelerator

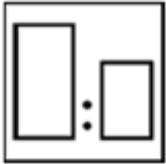

Description:

S620 Accelerator is an additive with properties to speed up the curing of 2K products; it will reduce both bake and air drying times. It has been designed for small repairs and single panel repairs.

To be used:

With “Hymax” 2K products
EXCEPT P97 Wash Primer, 1K products, P42 2K Rapid primer, or
C075 Express Clear.

Mix Ratio:

Recommended, Mix 2.5% to ready to Spray mix.
This product is not designed for full repairs when using a 2 Pack Fast Hardener.
Use for spot repairs and single panel repair.

Special Notes:

The use of S620 will significantly reduce the pot life of the ready to spray mixture.

Health and Safety:

For Professional use only. Warning contents are flammable, Vapor and spray Mist is Harmful. Skin and Eye Irritant.
Clean equipment with a cleaning solvent.
